## **2. AUTHORITY**

### **A. Overview of State Fire Protection**

The Idaho Department of Lands (IDL) is responsible for the protection of 4.8 million acres of forested lands. The State is divided into ten Areas, each managed by an Area Manager. The Area Manager is the Line Officer (LO) for the Area. These ten Areas - Priest Lake, Pend Oreille (includes Kootenai Valley FPD), Mica (includes Cataldo FPD), St. Joe, Clearwater, Ponderosa, Maggie Creek (includes Craig Mountain FPD), Payette, Southwest, and Eastern (includes South Central Field Office) have fire protection responsibility under the direction of the State Fire Coordinator. In addition, Idaho is one of the few states that still have privately-operated forest protective associations. There are two associations in Idaho protecting an additional 1.5 million acres; these are Clearwater-Potlatch Timber Protective Association (CPTPA) and Southern Idaho Timber Protective Association (SITPA).

The Bureau of Fire Management, located in Coeur d'Alene, provides policy support, consistency, and internal control for the State fire program. The Fire Business Program Manager works directly for the Bureau Chief and works closely with fiscal personnel and other staff to assist Areas/Districts/Associations (A/D/As) and Incident Management Teams (IMTs) during large fires on questions of policy and procedure. IDL staff may serve as local purchaser or as a Buying Team (BT) to assist IMTs in procurement when the workload becomes too great for the local Area Office. Logistical support is generally provided by the Coeur d'Alene Interagency Fire Cache (CDK) for incidents within the Northern Rockies.

### **B. Purpose**

The IDL Incident Business Operating Guide (IBOG) is intended to serve as a policy and procedures reference guide for those working in support of IDL and Timber Protective Association (TPA) incidents. The IBOG will be useful to dispatchers supporting initial attack fires, as well as members of IMTs, BTs, and Expanded Dispatch working in support of extended attack incidents.

Any deviations from the guidelines will be approved by the Agency Administrator(AA), Line Officer(LO), Incident Business Advisor (IBA), Fire Business Program Manager or Fire Business Program Specialist.

As a participating member of the National Wildfire Coordinating Group (NWCG), IDL applies the interagency policies and guidelines established in the Interagency Incident Business Management Handbook (IIBMH). However, IDL policy can vary from those established in the IIBMH. In such cases, the policies contained within this document, or those referenced in this document, shall be followed.

### C. Incident Business Advisor

The Incident Business Advisor (IBA) works under the direct supervision of the Line Officer (LO), Area Manager, and in coordination with the Incident Management Team (IMT). When available, qualified IBAs are required on IDL Type I and II fires and recommended for Type III fires. The IBA will be requested through the Fire Bureau Duty Officer. Incident Business Advisors from IDL or other agencies must have administrative fiscal oversight responsibilities as defined in the IDL implementation of the National Incident Management System Wildland Fire Qualification System Guide, PMS 310-1 revised Oct 2016.

The primary duty of the IBA is to provide the LO with an overview of incident management business practices, make recommendations for improvements, and facilitate communication with the IMT, the BT, Expanded Dispatch and other resources assigned in support of the incident.

IBA responsibilities are defined in the IDL Mobilization Guide, Chapter 20, Administrative Procedures, Attachment 2, Incident Business Advisor Responsibilities.

The IBA, or their designee, will provide a narrative statement to the LO outlining processes that worked well, areas that need improvement, including specific recommendations for improvement, and items requiring follow-up by the host agency. If unable to complete the narrative report prior to demobilization of the IMT, the report will be submitted to the IC and the LO within 30 days after the team departs the incident.

## 3. PERSONNEL

### A. Idaho Department of Lands Casual Employees

IDL Forest Protective Districts and Areas are responsible for hiring casual employees and processing all necessary paperwork.

Casual employees should be treated as regular agency employees while on incidents. The Casual's rate of pay shall not be changed after initial employment except as authorized by the Bureau of Fire Management. If an IMT has a need to hire Casual Employees on IDL jurisdictional fires, the local IDL office will hire the Casuals for the incident in accordance with IDL policy and procedures. Reference the Northern Rockies or Great Basin Geographic Area Supplements to the Interagency Incident Business Management Handbook (IIBMH), Chapter 50, or IDL FMH policy 846.

### B. Specialized Personnel

#### 1. Timber Protective Associations

TPA personnel shall receive the same courtesy as IDL and federally employed personnel. They are considered "agency" personnel and should not be confused with private contractors.

#### 2. Fire Service Organizations

It is IDL's responsibility to be the single hiring point for equipment and personnel obtained from Idaho Fire Service Organizations (FSOs). The only exception is local initial attack mutual assistance agreements.

The local agency needing additional structure-type resources for wildland fire incidents may order other Idaho FSO resources. The procedures for ordering structure resources can be found in the Statewide Operating Plan pursuant to the Idaho Cooperative Wildland Fire

Management and Stafford Act Agreement. When using this process, the host agency or IMT may be expected to track the structure resources' time for the purpose of ensuring Work/Rest guidelines and documentation of time worked are followed. It is imperative the ordering agency be in communication with IDL, the wildland agency, and/or IMT at all times to ensure safety of all resources.

For details regarding the IDL agreement and Idaho Cooperator Certification Form (ICCF), see the current Idaho Fire Service Organization Rate Book. If the FSO does not provide a copy to Finance, they are available on the IDL Incident Business webpage.

### 3. Idaho Department of Correction

Idaho Department of Correction (IDOC) resources may be used on any wildland fire incident. IDOC resources are made available through IDL. The resources include Type 2 crews, camp crews, and a food unit catering trailer.

Mobilization of IDOC resources is coordinated between the Liaison Officers, institutions, and dispatch centers as per the agreement.

Specific direction regarding the use of these resources can be found in the Annual Operating and Financial Plan between IDOC and IDL. It is available on the IDL public website on the Incident Business webpage.

All IDOC costs are paid through IDL.

### 4. Idaho National Guard

All orders for Idaho National Guard (IDNG) resources for use on wildfires in Idaho shall go through the IDL, Bureau of Fire Management. Payment for the use of the IDNG is through IDL.

IDNG resources can only be utilized when all other potential sources have been exhausted. To initiate an order for the IDNG, contact the IDL Fire Bureau Duty Officer.

The IMT will be responsible for tracking IDNG resources to ensure a clean payment package. IDNG will have a resource order and submit crew time reports to finance. Host agencies will assign personnel to fill the roles of IBA and National Guard Liaison at the State Emergency Operations Center (EOC), as well as additional liaisons at the assigned locations of IDNG resources.

### 5. Union Representative

When a fire has reached a level of 300 individuals on a Forest Service fire, or 300 Forest Service employees on other than a Forest Service fire, and a fire camp has been established, a union representative will be ordered.

### 6. Human Resource Specialist

A Human Resource Specialist (HRSP), when available, is required for all fire incidents which have 300 or more people in a camp situation. For camps less than 300, Incident Commanders should examine the situation to determine if an HRSP is warranted.

### 7. Commissary

Personnel are expected to come to an incident prepared for 14-day assignments. Commissary may be established to serve the needs of incident personnel, as outlined in the IIBMh, Chapter 10.

## C. Compensation for Injury/Accident and Illness

### Agency Provided Medical Care (APMC)

IDL, cooperator, and TPA employees may use APMC while performing suppression duties. Under this program, hosting agencies pay for limited first aid costs for minor injury or illnesses that occur on an incident and require only one treatment.

The use of APMC will be in accordance with the IIBMH, Chapter 10. On incidents managed by an IMT, a **First Report of Injury or Illness** must be completed. See Attachment 1 to this document. If the Idaho form is not available, the Report of Traumatic Injury and Claim for Continuation of Pay/Compensation, CA-1, or Notice of Occupational Disease and Claim for Compensation, CA-2, are acceptable. Refer to the IIBMH, Chapter 10, for further direction.

## D. Workers' Compensation Insurance

### 1. IDL and TPA Personnel

All employees (full-time, part-time, temporary/seasonal, and casual employees) are covered by Workers' Compensation Insurance through the Idaho State Insurance Fund while in the course and scope of employment.

If an employee requires treatment not covered by APMC, a **First Report of Injury or Illness** should be completed. See Attachment 1 to this document. This form is the official form for Idaho State and TPA employees. It is also available at the Idaho State Insurance Fund website. If the Idaho form is not available, the Report of Traumatic Injury and Claim for Continuation of Pay/Compensation, CA-1, or a Notice of Occupational Disease and Claim for Compensation, CA-2, are acceptable forms. Refer to the IIBMH, Chapter 10, for further direction.

**Email the completed form to [safety@idl.idaho.gov](mailto:safety@idl.idaho.gov).**

### 2. State Cooperators

State cooperators are required to carry Workers' Compensation Insurance on all employees and volunteers. If an injury or illness occurs, follow their agency-specific guidelines.

**All work-related injuries must be reported to the home unit as quickly as possible. The home unit may assist with notification and documentation. Failure to report a work-related accident is a serious matter and may preclude an employee's coverage under Workers' Compensation Insurance.**

## E. Reasonable Accommodations

Any personnel, regardless of hiring status (regular government employee or casual), who requires a reasonable accommodation (RA) to perform duties in an incident environment, must have written approval for that RA from their home unit Human Resources or Civil Rights office. Prior to accepting an assignment, individuals should alert the incident of the RA needs so the Incident Commander and the host agency administrator can determine if the RA can be provided. If the RA cannot be satisfied, the individual should refuse the assignment.

Should an accommodation be requested during an incident, the request must be referred back to the employee's hiring unit for adjudication per agency policy. If the incident cannot accommodate the RA, the only option may be to release the individual.

## 4. ACQUISITION

### A. Coeur d'Alene Interagency Fire Cache

CDK provides primary logistical support for IDL incidents in the Northern Rockies Geographic Area (north of the Salmon River). CDK stocks all standard supplies and equipment used on an interagency and interregional basis as well as many specialty items. Procurement personnel should check with the CDK for common non-cache supply items before turning to other sources of supply. A copy of the Coeur d'Alene Interagency Fire Cache User's Guide will be provided to IMTs at in-brief.

### B. Pre-Season Agreements and Incident Only EERAs

There is flexibility in procurement methods for equipment on IDL jurisdiction fires. Equipment that has been competitively bid through the federal contracting process may be procured through usual dispatch procedures. Equipment that has not been competitively bid, but is available locally, is procured through local IDL Preseason Contracts. The local dispatch office maintains a list of contracts that supplements the equipment available through federal contracts. The preseason contracts are available on IDL's Incident Business webpage in order of dispatch zone. Preference is to use those under local agreement prior to others.

If equipment has not been signed up, but it is used as an emergency hire in accordance with Title 38, Section 133, Idaho Code, it can be signed up at the incident. Incident-Only contracts and agreements require signature approval by the IDL Area Manager, Fire Warden or their designee. This includes delegation to an IMT.

In the event of on-incident hire, an order needs to be placed with dispatch to generate a resource order. The IC, Safety Officer, or their designee, i.e. Heavy Equipment Boss (HEQB), shall assess equipment during Initial Attack for safety. If deficiencies are identified, they should be mitigated immediately. At the first opportunity, without hampering operations, a pre-use inspection should be completed. Prior to the second operational period an Incident-only EERA will be executed, and equipment and operator must meet all requirements as outlined in IDL policy. If they do not meet the minimum requirements, they must be released from the incident.

Purchasing authority is not based on a specific dollar amount; however, it must be used with oversight.

In all cases, the preferred procurement method is that which reduces mobilization time and/or is most advantageous in meeting fire suppression objectives, as determined by the LO.

On State fires, contracts initiated by IDL personnel (or by personnel representing IDL) are not required to be countersigned by contracting officers or Procurement Unit Leaders working for a federal agency.

If the IMT elects to retain equipment that meets their needs, and it is already on the fire, an order will be placed with Expanded Dispatch (with a notation that the equipment is already on the fire). Procurement personnel will execute an Incident-only EERA, ensure inspections are complete, and that Emergency Equipment Shift Tickets, OF-297, are up-to-date.

### C. Land/Facility Use Agreements

The IMT will check with the local IDL or TPA office to obtain information on preseason land use and facilities use agreements. The IMT will coordinate with local IDL or TPA personnel to obtain current lease rates for bare land and facilities for the local area.

Follow the procedures outlined in FMH 840, Attachment 5, Emergency Facilities and Land Use Agreement found on the IDL Incident Business webpage.

#### D. Rental Vehicles

Rental vehicles needed for IDL incidents shall be ordered through the normal dispatch process. **It is imperative IMTs track rental vehicles closely to ensure a clean package at time of release from incident.** The Northern Rockies Rental Vehicle Tracker, found on the Northern Rockies Incident Business website, may be used as an aid. Pre and post use inspections are required on IDL incidents.

#### E. Local Procurement/Contacts

Upon arrival, the finance section will be given a list of local vendors and resources that may be used in support of the incident. The following may be included in these lists:

##### 1. Preseason contracts.

For meals on Type 3, 4 and 5 fires use the **Restaurant or Lodging Authorization Form** obtained through the local Area office or on the IDL Incident Business webpage.

For per diem provisions for IDL employees, see **2017 Meal Rate and Per Diem Guidelines, Attachment 2 to this document.**

##### 2. Procurement contacts.

##### 3. Current list of cache items located at the local cache and the CDK.

##### 4. Preseason land use agreements and cooperative fire agreements.

#### F. Buying Team Procedures

Procurement decisions should be based on sound judgment considering cost and the most expeditious source of supply to meet the needs of the suppression effort. IDL has flexibility in its procurement methods and is not bound by federal competitive solicitations. However, federal contracts should be used when most advantageous in meeting suppression objectives.

Once the procurement workload exceeds the A/D/A's capabilities, a BT may be ordered or assembled. IDL has identified specific employees to work with an interagency BT; these employees are familiar with IDL's procurement policy and have substantial purchasing authority. BT composition may be solely IDL, a mix of federal and state employees, or a regional or national BT.

The LO will have the final decision whether a BT is necessary. The LO may also request Expanded Dispatch personnel to assist the incident. The BT works directly for the LO and provides procurement services for the IMT. Equipment and supply Resource Orders will go directly from the incident's Supply Unit Leader to Expanded Dispatch by radio, phone, or electronic transfer. Expanded Dispatch will order all local and national cache items, and the BT will order all local purchases.

The BT will provide all documents pertaining to non-personnel services, equipment, and supplies paid by credit cards to the host agency's fiscal representative for payment. Any payments made with credit cards will be fully documented with Resource Orders. Duplicate copies of all documents will be provided to the host agency fiscal representative. BT credit card numbers will be redacted for security purposes.

BTs shall procure drinks and fresh fruit as supplemental food items in accordance with the IIBMH, Chapter 20, Acquisition, Subsistence and Lodging Provisions.

The BT may utilize logistical support provided by the CDK for items that are not available locally.

The BT will not use their credit cards to make payments on EERAs or Preseason Contracts.

**The following items are either restricted from purchasing, or limited in some manner, during incident operations:**

1. Alcoholic beverages of any type.
2. Clothing, buttons, stickers, hats, name badges, etc., with special or specific printing, coloring, or logos. Bathing suits or other special clothing to be worn in Rest and Recuperation (R&R) centers and/or incident camps.
3. Pillows or sleeping bags (other than regular General Services Administration (GSA), fire cache type).
4. Plants or flowers.
5. Orders for specific magazines, newspapers, or other literature. Local newspapers will be limited to 10 copies per incident per day. Only local newspapers and *USA Today* will be purchased.
6. Improvements to GSA or IDL vehicles (exceptions require approval by the Incident Business Advisor or Agency Administrator).
7. Motels, hotels, or other commercial rooms for overhead and other personnel located in an area where an incident camp exists (exceptions require approval by the Incident Business Advisor or Agency Administrator).
8. Extravagant or specialty foods. The only supplemental foods that can be purchased are listed in the 2015-2019 National Mobile Food Services Contract.
9. Essential oils. Exceptions must be pre-authorized by the IBA or the AA.
10. Barbers will be provided only for the military at their request.
11. Fees for the use of commercial hot springs, unless associated with R&R.

The BT Leader will contact the IBA after BT has been notified of release from the incident to establish a date and time for closeout with the host agency.

## **5. PROPERTY MANAGEMENT**

The IMT is expected to place a high priority on property management. The supplies issued to the incident by the servicing fire cache are issued on a temporary loan basis and must be safeguarded, accounted for and tracked. Attention must be given to the durable supply items as outlined in the IIBMH, Chapter 40, Incident Business Coordination.

IDL's expectation is that all durable items are tracked and accounted for by the IMT. All durable items not accounted for at closeout will be documented. A list of the items unaccounted for will be sent to the IMT's home unit for resolution within 60 days.

Accountable property is defined as any item with a purchase price of more than \$2,000, or considered sensitive, such as chainsaws, cameras, computer equipment, etc. Purchase of any incident-funded accountable property will be approved by the IBA and/or LO prior to purchase. All accountable property purchased during an incident will be transferred to CDK at the end of the incident.

Refer to the Coeur d'Alene Interagency Fire Cache User's Guide for operating procedures, stocking levels, classifications of equipment and supplies, and procedures for ordering.

Recycling: If possible, arrangements should be made with local recyclers to take plastic, paper, metal, glass, and reusable food stuffs. Recycling at the incident base requires coordination with the host agency. The host agency will provide information for recycling procedures and requirements to the IMT at the Line Officer briefing. Refer to IIBMh, Chapter 30, Property Management.

## **6. BUSINESS COORDINATION**

### **A. IMT Coordination – Communication**

As soon as possible, the IMT and host agency will provide telephone numbers for communication between the two entities.

The IBA, or host agency fiscal representative, will communicate with the Finance Section on expectations.

A representative of the Fire Business Program, or a fiscal representative, will visit all incidents managed by an IMT.

### **B. Fire Management Assistance Grant (FMAG)**

In the event a wildland fire threatens a community, the local government and Governor may make a disaster declaration. When a declaration is in place, the State or local government may receive financial assistance through an FMAG from the Federal Emergency Management Agency (FEMA) to offset the suppression costs to the applicant agencies, typically the State, local communities, and tribal agencies.

Incident Management personnel shall ensure cost accounting procedures meet the needs of the agencies and communities for the FMAG application process. The IMT will ensure license plate numbers and operators of all Federal and State vehicles charging to the fire are documented together in one place.

### **C. Dispatch/Expanded Dispatch Organization**

An Expanded Dispatch Center will be established at a location to be determined by the applicable Dispatch Center Manager. Names and phone numbers for the various positions will be provided to the IMT and the IBA/host agency fiscal representative as soon as the Center is operating on an incident.

Resource Orders and numbers are assigned by Expanded Dispatch; however, a block of supply numbers may be assigned to the IMT if coordinated through Expanded Dispatch. As a guideline, all Resource Orders for overhead, aircraft, equipment and supplies will be ordered and filled through Dispatch or Expanded Dispatch. IMTs may order fire cache items directly from CDK if coordinated with Dispatch or Expanded Dispatch in advance.

#### D. Agency and Contract Payments

**All payments on Idaho state fires are made by IDL.** Payments for USFS contracted personnel or equipment will not be sent directly to the USFS Albuquerque Service Center. Prompt payment for all contracted personnel and equipment requires a current Request for Taxpayer Identification Number and Certification form (W-9) be completed. The Finance Section will be provided blank copies of the W-9 form for distribution to each vendor. The host agency fiscal representative or the IBA will collect the completed forms and deliver to the host agency local office.

For long duration fires, there may be a need for interim payments to contractors and local and state cooperators. These payments will be made at the IDL fiscal office. The IMT's Finance Section Chief (FSC), or designee, will deliver the payment documents to the IBA or host agency fiscal representative for processing and payment. The following documentation is required for payment:

1. Emergency Equipment Use Invoice, OF-286, completed and signed by both parties, with supporting documents of items to be paid or deducted from the Contractor.
2. Emergency Equipment Shift Tickets, OF-297, for all days covered, signed by both parties. Send original pink copy.
3. Vehicle/Heavy Equipment Pre Inspection Checklist, OF-296, with any claims noted.
4. Documentation of any claims.
5. A Copy of signed contract or agreement (for VIPR contracts, only the payment rates and terms portion is required with the payment package).
6. Request for Taxpayer Identification Number and Certification, W-9.
7. Resource Order.

#### E. Use of Purchase Cards

Purchase Cards (P-Cards) may not be used to make salary payments, purchase order payments, preseason contract/agreement payments, EERA payments, or land/facility use rental agreement payments.

Some IDL employees have credit cards that may be used to make vendor payments as described below.

1. P-Cards may be used to make payments to vendors for local purchases.
2. P-Cards *cannot* be used to feed employees during fire suppression activities unless arranged for and purchased by the BT.
3. All payments must be supported by a Resource Order number.
4. In addition to the requirements of the IIBMH, a copy of the P-Card purchase shall be included in the finance file; invoices shall be clearly marked with the name of the P-Card holder and the last four digits of the P-Card number.
5. Payment shall stay within the P-Card authority, or the transaction limitations of the P-Card.
6. Use of federal credit cards will be limited to local procurement agents, Procurement Unit Leader (PUL), or BT staying within IDL's authority.

## F. Closeout

The FSC will contact the IBA and/or LO after the IMT has been notified of release from the incident to establish a date and time for transition of the Incident Finance Package to the incoming IMT or to closeout with the host agency. Follow-up after the incident between the host agency and the FSC may also occur to provide information and resolve issues in finance, procurement, claims, etc.

The IBA, or their designee, may participate in the exit interview of each assigned IMT providing a verbal and written assessment utilizing the applicable Geographic Area IMT Finance Evaluation form.

The final Incident Finance Package will be prepared in accordance with the IIBMH, Chapter 40, Incident Business Coordination.

The LO, Fire Warden, IBA, and host agency fiscal representative may participate in the IMT Finance closeout.

## 7. COOPERATIVE RELATIONS

### A. Law Enforcement and Investigations

Upon assignment, the IMT will work with the Line Officer to identify law enforcement support resources available, and identify local operating procedures.

Significant law enforcement incidents, or matters needing criminal investigation, shall be reported to the law enforcement agency having jurisdiction as soon as practicable. All law enforcement incidents will be entered into the incident security log and documented. Copies of incident security logs and incident reports will be turned over to law enforcement when warranted.

Other investigations (claims, motor vehicle accidents, etc.) and normal incident security activities (traffic control, etc.) will be handled by the law enforcement personnel assigned directly to the incident.

### B. Claims

Claims against the state of Idaho for incidents under IDL jurisdiction, while managed by an IMT will be submitted to the Finance Section or their designee. The IMT will ensure documentation is filed in accordance with Chapter 70 of the IIBMH. The IMT can resolve claims for the state of Idaho up to \$2,000. All documentation must be submitted to the A/D/A.

For claims against the state of Idaho on incidents under IDL jurisdiction where an IMT is not assigned, the A/D/A shall ensure documentation is filed in accordance with Chapter 70 of the IIBMH. The A/D/A can resolve claims for the state of Idaho up to \$2,000.

#### Tort Claims:

The Idaho Tort Claims Act (ITCA) §6-901 - §6-929, addresses liability of the state including obligations for defense of employees, exceptions to liability, time and manner of filing claims, content of claims, time for allowance or denial of claims, recourse of suit for denied claims, limitation of actions, service of summons and complaint, and limits of liability. The Notice of Claim form is on the IDL Intranet under Fire Business and the public website under Incident Business.

Any person wishing to file a claim against a state agency must refer to the ITCA statutes for complete information. A specific form is not required to file a claim. An abbreviated generic

instruction sheet and an optional form are provided as a courtesy, but they do not provide detailed information or waive any provisions of statute.

Non-Tort Claims:

The process shall be in accordance with Chapter 70 of the IIBMH.

Employee Claims:

Employee claims for damage of personal property while on a fire assignment shall be made through the Home Station. Maximum reimbursement shall be no more than the cost to obtain the item from the Cache system. Determination of reimbursement shall include the age and condition of the item prior to the damage/destruction. The damaged/destroyed item(s) shall be collected from the Claimant for examination and disposal. Examples include: tents, sleeping bags, nomex, etc. Documentation shall be in accordance with Chapter 70 of the IIBMH, including a Resource Order. Reimbursement shall be made using the SA-43 Travel Expense Voucher. Claims for items that are not standard Cache items require approval from the Fire Business Program Manager.

## **8. INFORMATION TECHNOLOGY**

IDL's computer system in the local offices may be used in support of incidents when incident use does not disrupt the daily operation of the A/D/A office. CDK houses four computer kits maintained by the IDL Information Technology (IT) staff. Each kit contains six laptops with the necessary hardware for networking. The system is loaded with the latest version of e I-Suite and designed for use of the application. The financial code to use for all IDL or TPA fires will be the dispatch generated FireCode.

	Did anyone witness the accident? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, provide name, phone #:		
	Preparer's name and title:		
	Preparer's phone number:		Date prepared:

## 2017 Meal Rates and Per Diem Guidelines

These provisions apply to all Idaho Department of Lands (IDL) regular and Casual employees and to all Fire Service Organization (FSO) personnel mobilized through IDL.

All IDL employees, and those mobilized through IDL, are expected to provide for their subsistence while in travel status and will be reimbursed upon return to the home unit via a Travel Expense Voucher. Employing agency per diem rates must be adhered to.

The only exception to this policy is that the incident agency may provide fire-contracted meals through the use of designated restaurants under a procurement method at no cost to the individual. Meal cost (excluding alcohol) plus gratuity should not exceed the allowed meal rate amount.

Under no circumstances will IDL employees use purchase cards (P-Cards) to obtain meals.

### A. Travel To/From Fire Suppression Assignments

1. The GSA domestic per diem meal rates will be used while traveling to/from incidents in accordance with the GSA Domestic Per Diem rates.

Per diem rates are based on destination.

Example: Traveling to Missoula, MT for fire assignment: the per diem rates used for mobilization and demobilization period will be at the rate for Missoula, MT.

**NOTE:** IDL does not follow the GSA per diem policy of first and last day paid at 75% of the Full Daily Rate for meals and incidental expenses. Following the Idaho State Board of Examiners policy, a partial-day reimbursement for per diem shall be paid to the traveler at the maximum rate set within the following limitations:

**Breakfast:** If the actual departure time is 7:00 a.m. or before, or if the return time is 8:00 a.m. or after. Paid at 25% of Federal Rate.

**Lunch:** If the actual departure time is 11:00 a.m. or before, or if the return time is 2:00 p.m. or after. Paid at 35% of Federal Rate.

**Dinner:** If the actual departure time is 5:00 p.m. or before, or if the return time is 7:00 p.m. or after. Paid at 55% of Federal Rate.

**Per Diem for travel will not be paid in excess of the full daily rate allowed.**

**When meals are furnished by the incident or host agency, individuals may not seek per diem for meal reimbursement.**

- B. The **Fire-Contracted Meal Rates** will be used in Idaho only when the following conditions are met:

1. Meals are provided in support of **fire suppression** (not prescribed burning).
2. Meals are provided by a vendor with a current Preseason Agreement or an Incident-only Emergency Equipment Rental Agreement (EERA) signed contract.
3. The Restaurant or Lodging Authorization form is used. It can be found at on the IDL Incident Business webpage.

<b>Fire-Contracted Meal Rates</b>		
Meal	Rate	Partial Day Rate
Breakfast	\$12.75	25 Percent
Sack Lunch	\$17.85	35 Percent
Lunch	\$17.85	35 Percent
Dinner	\$28.05	55 Percent
Full Day	\$51.00	

**Note:** Total allowance includes a maximum 15% gratuity. Rates are negotiable but not to exceed the above rates.

- C. IDL and Fire Service Organization personnel are not entitled to claim daily incidentals when assigned to an incident.
